

ISO/IEC 27001:2013

**INFORMATION SECURITY MANAGEMENT
SYSTEM (ISMS)**

Apa itu ISMS ?

International Standard ISO/IEC 27001:2013 Information Security Management System (ISMS)

Menyediakan spesifikasi dan kawalan-kawalan bagi melindungi keselamatan aset maklumat

Bagi meningkatkan integriti, Kerahsiaan dan Ketersediaan DATA & INFORMATION.

2005 Information security

In 2005, ISO and IEC's joint technical committee JTC1 launches ISO/IEC 27001, a management system standard on information security. As businesses become increasingly reliant on information technology, securing the system and minimizing risks is ever more important. ISO 27001:2005 has become one of ISO's most popular standards.
